**SPRING 2012**

**JOE BUSSIÈRE**

## MY FIRST CORN SONG

My corn song  
I threw the paper  
Towel Day raker  
Now jackpot today  
Arguments warrant  
Soak the sponge  
Im your gay  
Throwing around cash  
Rendering pinkness  
Cool in your heart  
It's not funny.  
To be too fat  
Please fat provinces  
I love fat dream  
Our tongue  
Non-tongue  
Fat because of the tongue  
Fat is the Word of God  
In the house  
Connecting to my penis  
Without you  
I want to skink tail  
Wed kitchen  
Women's suffrage  
Realistic lighting  
Than virginity  
I turn to you  
I think the serial time  
Summer residence  
Fat huge head  
Crime occurs  
Race and idk  
Title yoke  
Some horseback riding  
I do not even happen.  
moment of falafel  
Look at his hair.  
Wow stupid possibilities  
Or cooking  
Fried my disappointment  
Cool and sexy skating  
Ice Party  
My various virginity  
If not, sunrise  
Rachel, I am a kite  
And Pakistan  
Cool mountain idk  
Interesting fern  
in the sky  
Does a pant occur  
The harbor always does

## chapters of the road

the first chapter of the Road; an unknown world  
a yes and no and somewhere to go  
CD home not husband  
Does China compete?  
strong bones weak bones  
water shapes stones and vice versa  
heartless saints and somewhere between sky and dirt  
virtual unyielding number of poor betterness  
and somehow the female a door to the world  
somehow all things rooted in others  
the rain creates puddles after the trip from sky to dirt

### Chapter VII forever

Heaven and earth forever so long all alone  
someone else putting the self in a body  
the body is part of all these good things here  
the good place, the good food, the good weather  
sometimes feeling empty doesn't feel so bad  
or so good; but there's not many on the road

colors blind the eye, the Pentatonic scale deafens flavors  
so that the population of cool  
hunts very heart mad, and the rare of the goods is OK harm.

what will I do with my body next? subtle non-consensus  
subtle capacity; the winter is involved with the spring  
observing the trillion things  
and to not be scared even if I faint muffled alone

Said death, that death said far,  
far away, saying anti- OXBOW big, big, ground;  
Personal law, the law of the heavens, France Road, Imitation of Nature.  
re-light the root  
quiet the impatient monarch

## REALISTICISMS

how much greater my risk was  
just kind of brought more realism  
into my world

even though I'm going to get a colonoscopy  
life just goes on as normal  
this will be great for people

to lounge around  
tonight we're having a dinner party  
you always want to test the person

to see if they're safe  
all the things that everyone thinks of  
people don't like what they don't get

he just said I love you  
you must have no self esteem  
all girls have girl parties

that's why I don't go to grocery stores  
5:00 am day of colonoscopy yay!  
I've always had it in the back of my mind

## PIRACVY

What a delight to get on the thermal comfort without  
Disturbing evidence of the origin of the heat.  
If there is a  
One, such as Satan,  
Can put either -  
Behind us, but  
Two and add to  
Mental torment,  
Was little room  
Mirrors!  
Demonic, however, was not the right kind of  
Living or dining room  
Waking to the smell of fresh dew ...  
Bayside High School a few hot  
That's why I do not smoke, bind my feet or link to commit to women.  
Primitive monotheism  
Only replicas, copies of the same minus  
I love her clothes THEORECTICALLY  
psychopomp shoegaze  
The Oscars go in a coma.  
Strange stories when they are not afraid of children  
Found it necessary to walk backwards  
British style dream home in Nashville  
If variety is the spice of life  
I was not fat as you imagine.  
But I'm more of visual learner,

## MATHEMATICIANISTIC

hanging out with a cat high on LSD  
nothing sucks because of flutes  
this is written on my souvenir T shirt from  
the Native American reservation  
I hate unclean clothes  
like I wish for various lifestyles  
something but like I haven't done that  
in a while. This used to be my homepage!  
Which one of you talked to my  
little brother in the bathroom?

Where's my malt liquor and cognac  
for the autism party?  
This is America and I'm not fun in it.  
I even sometimes listen to music.  
I bought lunch and didn't  
have any mystical revelations so I fucked up  
I hate vegan sour cream because I hate  
sour cream. Cops guard Wall St bankers  
and not pigeons. Those aren't worms on our meat

Give me a dollar cloudy night  
sky smells good. But it is not good.  
I don't know what it is. Looking  
sexy on the assembly line. I hate  
the army and I hate the abbreviations. The  
shape of this looks nice. Chicken on rice.  
Give us this day. Drama in the harbor.

## **THE WINTER CLASSIC LIVE**

there's a cello between my legs  
it is not nice to smash cellos over people's heads  
if you have a cello I would prefer you not to  
smash it over my head  
also I would prefer to not be murdered

## SEWER SURA

Like poverty injustice marriage in Arabia

in the desert in the mountains

on a tiny street the place in my sedia

some people think about food

or food price I get texts from God

when illiteracy creeps in memorize shapes

when my catalogue of revelations grows

I'll put on my socks and go to the bank

when drone is not music when

who bomb we bomb repeats

they just don't like you

gradual eyeballs earspirals blood-

cells glowing neurons hands fingered fingers

fingerprinted take my picture put it online

in several places laws handed down there

must be other ways but people can always find

ways to sleep with less expensive options available

## NATIONAL TRUTH BRIDGE

the universal consciousness that pervades my solemnity  
is maimed by a universal truth which emanates from the physical youth  
my beauty is in my pussy  
is what the old Haitian lady in the psychiatric ward  
would always repeat to anyone who would listen  
she had a phrase to repeat to a variable X  
in which X is a sentient being  
the physicality of multiplicity of possibilities of events  
is rendered shallow in my pornstar girlfriend  
I want to have a pornstar wife  
Jeff Koons had a pornstar wife  
why can't I have a pornstar wife  
the universe works in mysterious ways  
for example there is a quantum physics universe  
which proves something about pornstar girlfriends  
I am sure of so many things that help me leave my bed  
I am so sure I have no friends and I suck  
am I the very bad place  
no way jose I M A POET MOM  
Mom this is my pornstar girlfriend I told you about  
she is teaching me how to crochet  
we do boring things together all the time  
and we stare into eachother's eyes the whole fuck  
and we have walked the entirety of the williamsburg bridge  
kissing eachother's lips our lips touched like the whole walk

**SHOULDER serious:**

every day of my

always here you

this dub step

only a little why

not care a lot  
why care at all  
everythings not ok

I lie when I say  
OK it is not OK  
and i wont finish it

but fish swim  
rain rains

## THE DOWNWARD COURSE

“A true Brahmana, though he has killed father and mother and two holy kings, and even a fifth man, is free from guilt.” -Dhammapada

I wake up every Thursday drunk  
I go to pharmacies  
buy eatable stuff wrapped in plastic  
I find a blind child  
I tell the blind child to see the plastic  
I hold the plastic and the child  
feels the plastic and perceives the plastic

I ask the child about orange  
I talk about orange grapes  
I talk about orange oranges  
I talk about orange promises  
the blind child asserts that promises  
in principle  
cannot be orange  
the child demonstrates qualities  
I perceive some of these qualities

## Joining

Join the Earth.  
Electrical outlet glows red.  
For the application.  
Output, electric glow red.  
Manual.

Nude beach ball.  
Meat passes.  
Real people have been here before.  
Universal is not likely.  
Sometimes lemon is his maturity.

For the world.  
Some increase output, electric light.  
Handbook.  
We still live ball road programs.

Talking is not necessary  
Could be accepted.  
When I remember, remember me.  
Recursive in nature because they do the same  
Of electrons. Rome, the priest.

Exports of meat.  
In fact, the first person.  
Recovery in a timely manner.  
If my memory serves me right, I will remember.  
Morning, evening, night time no useless.
